## Boundless Retreat Schedule - Descriptions

Workshops	Description	Presenter (in alphabetical order)
<b>The Fun and Art of Rough Body Play</b>	<p>There are times during your scene when you just want to play rough! My Rough Body Play class will show you playful, safe, and if you are so inclined, sadistic techniques for roughing it up and tussling with your bottom. Along with demonstrations, I will discuss the psychological fun and connective significance of engaging in rough body play during a scene. The class will focus on grabbing, slapping, punching, kicking and stomping, pressure points, as well as various ways of physically manipulating the bottom while tussling. The class will also cover safety and important aspects of negotiation you should know in order to maximize safety and pleasure for both players.</p> <p>Note: This class is not about combative or competitive takedowns or fighting.</p>	<p><b>Master Hines</b> is a Leather Dominant, BDSM Educator and Professional Dominant with thirty-three years of experience in the BDSM community. Core to Master Hines' BDSM philosophy is spirituality through power exchange with a heavy emphasis on the spiritual connection between the Top and bottom. His play ranges from sensual to sadistic. Master Hines is well known for his flair and artistry with floggers and has presented classes on many topics including Flogging, Spirituality and SM, Erotic Knife Play, Rough Body Play, Caning, Protocols, Primal Play and more. Master Hines is also a certified Bondassage/Elysium Practitioner. He is an accomplished artist specializing in contemporary painting and photography. You can visit his web sites at LovingDominance.com and HinesFineArt.com and TheArtistHinesPhotography.com. You can also find more information about Master Hines and read some of his writings on Fetlife at MasterHines.</p>
<b>Three Degrees of Touch - Sensual, Dominant, Sadistic</b>	<p>In SM, a lot of emphasis is put on toys and implements but less on physical contact and the importance of touch. While good technique with toys is obviously important, touch also plays a crucial role in creating connection and headspace during a scene. There are many ways to touch during a scene and each can communicate something different. The question is, what are the techniques and how do we get the most out of the natural human instinct for touch? In this class, I will break down touch into three categories, the sensual, the dominant, and the sadistic. I will discuss different techniques for each and demonstrate how each category of touch can be useful in enhancing your scene by making a greater connection with your partner. This is truly an important and dynamic class that you won't want to miss.</p>	
<b>Caning: From Sensual to Sadistic</b>	<p>Want to learn some basic theories of caning that will help you get more out of both sensual and sadistic BDSM scenes? We will cover:</p> <ul style="list-style-type: none"> <li>- Hands on exploration of a wide variety of canes</li> <li>- How to build your cane collection</li> <li>- Warm up and sensual play</li> <li>- Intense cathartic play</li> <li>- Discipline play</li> <li>- Using rhythm and cadence to build your caning scene</li> <li>- Building headspace in a scene</li> </ul>	<p><b>Miriam Green</b> has been active in the public BDSM scene for two decades. As a kink educator and coach, they help individuals, couples and communities build safety, fun and intimacy into BDSM play. Self-exploration and communication are Mir's kinks! Mir has taught for dozens of BDSM and kink organizations over the past twelve years. When not doing kink, Mir meditates and gardens in coastal Northern California.</p>
<b>Daily Meditations</b>	<p>Start the day with a bit of reflection, preparation, and self-care! Join us for a 45-minute session to reflect, ground, center, and prepare for a day of fun!</p>	
<b>Expansive Cuckolding</b>	<p>Drive into the sensual, provocative world of cuckold fantasies and explore their limitless potential for connection and excitement. This class is your gateway to crafting thrilling and emotionally charged scenes that titillate the senses and deepen your play.</p> <p>We'll start by unpacking traditional cuckold roles—cucks, cuckqueens, hotwives, and bulls—and expand the narrative to embrace a kaleidoscope of queer identities and genders. Why do these fantasies captivate so many? What drives the allure of surrender, subjugation, and tantalizing taboo? We'll explore these questions while weaving in tools and techniques to bring your fantasies to life.</p> <p>From the art of humiliation to the thrill of mind-fuckery, you'll learn how to infuse your scenes with creative elements like toys, bondage, degradation, and roleplay. Whether you're a curious beginner or an experienced player, this class offers insights for anyone who enjoys any role in cuckolding dynamics.</p> <p>Come ready to explore, laugh, and learn in a safe, supportive environment. Together, we'll craft memorable, fulfilling scenes that embody your desires and elevate your play to unforgettable heights.</p>	<p><b>Nyxie Noc</b> (any/all pronouns) is a kink presenter, community organizer, and Program Coordinator at Praxium, with a background as a former sex worker, content producer, and consultant. Known for bringing fresh, expansive, and creative perspectives to kink, Nyx has presented for AfterDark, Let it Reign, New Mexico Leather League, Service Oriented Conference, the Portland Leather Alliance, Boundless Events, Nocturnal Events, Bonobo Network, Sex Positive World, DomCon, Kinky Kollege, and Sex Geek Summer Camp. Their teaching emphasizes the power of consent and agency as foundations for safer, more intentional play, while also inviting participants to embrace playful curiosity, imagination, and edge in their explorations. Fun, dynamic, and deeply invested in equity and inclusion, Nyx creates spaces where people can grow, connect, and discover new ways to experience kink with authenticity and joy.</p>
<b>Sadistickle: Exploring The Tickle Fetish</b>	<p>"Sadistickle" is a beginner-level demo class that dives into the fascinating world of tickling as a form of edge play. We'll explore the origins of tickling and how it can be wielded as a tool for torture, punishment, and humiliation—or transformed into a sensual, sexual, and erotic experience. Whether you're curious about incorporating tickling into your play or simply intrigued by its psychological and physical effects, this class offers a playful yet in-depth introduction to the tickle fetish.</p>	
<b>How W/we keep the Dynamic when life gets in the way</b>	<p>We would like to invoke and invite discussion on the premise that many of the same "basic" tools used for vanilla relationships can be applied in other relationships types.</p> <p>Our experience has been that life has a unique way of interfering in our relationships. Continuing to maintain connection(s) with a partner(s) when life gets busy or introduces obstacles can be very difficult. Once adding in power/authority dynamics, things get even more tricky. At the end of the day, an authority/power dynamic is a relationship, and all relationships need to be tended to and have needs met in order to flourish.</p> <p>This class aims to provide situational context, and discuss the tools that we use to maintain our relationship and dynamics in the chaos of everyday life.</p>	<p><b>Sir Dyllan</b> is a Disabled, Queer, Polyamorous, Photographer, Leatherman, and Activist. He is often found photographing, volunteering, teaching, organizing, or participating in discussion groups. He has led, facilitated and organized educational discussions, groups, and panels on the topics of Kink, Service, Authority and Power Exchange, Polyamory, and their intersectionality. He is a co-founder of the Vacaville Polyamory Support Group and is involved with other organizations. Alongside His partners, He enjoys and welcomes serving His community, educating, and providing insight into and working towards removing stigma around High Protocol and 24-7 Authority and Power Exchange Dynamics.</p>
<b>"Respectfully, You suck... Master"</b> (Discussing the intersection of M/s/D/s and bratting)	<p>We're fairly sure that everyone has heard the trope that slaves can't/shouldn't be brats and must be well behaved at all times. However, W/we think all dynamics can allow for playful banter, and even "respectful" bratting can be a good thing.</p> <p>According to the Fetlife "kinktionary", "a brat is an individual who exhibits playful, mischievous, and intentionally disobedient behavior within a consensual power/authority dynamic... it's a flirty little game. Brat's stir the pot on purpose to seek attention, test the Dominant, or get a reaction (or punishment!)."</p> <p>How might that interaction shift, and this definition change when the individual exhibiting this behavior identifies as a submissive or slave within the dynamic? Let U/us lead you in a discussion on how bratting can be incorporated into a dynamic without dissolving into willfulness, genuine disobedience, or misalignment.</p>
